Dear Sirs,

Rural TV is "the  
most important network"  
as quoted on our  
Direct TV Channel 345  
We agree with that  
statement because  
that channel is the  
most unique and  
has desirable programs

RFD TV  
Nashville, Tenn.

This is apart for my plea to FCC to keep you  
on the air.

I love RFD TV & watch little else.

But, do have couple comments after watching  
the hour w/Patrick Mon eveing. Perhaps you  
are unaware that there are still many of us,  
esp in rural areas who do NOT have interest  
or computers or know how to use them, such as  
I, an 89 yr old woman!

I kept watching/waiting for you to give an  
address so those of us who are in this position  
can write your, snail mail. I at tempting to  
send this w/o complete address so I hope it  
reaches you. I also tried to call the number  
on the screen but it was busy & I also tried  
it the next morning to no avail, but I want to  
do my part to help keep you on the air, so  
another time, will you please give us an  
address & leave it on screen long enuf to  
copy it!

Dear FCC - 1641

I am writing Concerning Verizon  
trying to take RFD off the air, so far the  
Cable Co. I am with has not been involved.  
I am with Armstrong Cable Co, Butler, Pa, it  
has a office in Grove City, Pa. 16127. But  
I will tell you this, if I lost RFD, my  
+ I would go, that is the only station I ever  
watch, I do not like sports, Cap shows an  
anything with foul language or dirty talk, we  
ask for 1 decent station and you can't deal  
with that. Our farmers, and ranchers are what  
feed the world, the recipes to cook with are on  
RFD, even how to cook out doors, the way the  
world is going, DOCKET FILE COPY ORIGINAL you may very well appreciate a  
meal, if our Computers, & power were taken away.  
You had better take a good look at what you  
are trying to do to the rural areas, I am in a Sr.  
Citizen apart Complex, I'm 82 years old, ~~was~~ was  
raised on a small family farm, and proud of it.  
we canned vegetables, baked bread, and did all that  
good stuff, granted I'm slowed down now, I  
have a bad back, but, still cook & bake, can't  
you just do your thing, but, leave us alone to  
enjoy the few things we can still do, we enjoy the  
Mollie B Show, Mid-west Country, Marty Stewart  
Ray Stevens, and all the good music, and Comedy.  
Can't you just let us do it. Patrick Dooley has been  
so fair to everyone, and is such a great caring man  
one.

In the past severAl years since I have had the privilege of watching RFD TV, I seldom watch anything else, other than bit of local news.

It is the most wholesome, interesting, great, educational & rural orientated of anything ever! I am 89 years old who was born, raised & lived (still do) on my farm so all of the things featured on RFD TV are of interest to me.

I especially enjoy so many good Christian singers, music, etc as well as the news & other Ag related things.

Please keep it on the air & let them do their wonderful thing!

I am upset that Verizon felt the need to drop you & am about to cancel my Verizon phone w/them.

Yours truly,

I watch RFD TV on DirectTV. It is my favorite channel. I enjoy the variety of shows. I spend about 90% watching this channel. I pay alot of money to get it. There are sports, shopping networks, cartoons, Gameshow channels, etc that are never watched.

I wish I could pay for those channels I want & not this "bundle" payment I am forced to have.

My husband is a farmer & gets educated on the aquicultural Shows.

Please Keep RFD an option for us.

Thank You.

Dear FCC 16-41

We watch RFD-TV on Dish Network.  
Our personal Comment:

We have been residents of Colorado for 70 years, we are now residents of Idaho, and truly enjoy the agricultural climate of both states. As a young person I was raised on a farm in Arkansas and my husband was raised on a farm/ranch in Colorado. - One thing that is dear to our hearts today is the ability to view the two country channels which we regularly do each evening. In later years my husband has started restoring old tractors and we enjoy tractor shows we see on your channels immensely!

RFD Channels provide for us not simply entertainment from the older sit-coms and country music programs, Polka dancing and music but also the programs showing new methods of ranching and farming that we can see are very beneficial to the industries and agricultural businesses that people in the United States and the entire world need for better living, better economy and a more productive and friendly environment and brings about closeness that all families are entitled to. We are pleased to say to you and our friends around us that each and every program are ones that the total family members can watch and be sure there is no bad, or embarrassing language.

It appears FCC and other networks wish to allow the canceling out of the RFD-TV and Family Net to allow room for more programs that show themes in which ones have to endure the immorality, murder, stealing, lying, words that are not to be used in public or private, shows that encourage viewers to commit violent crimes. Programs that teach children to be independent and disrespectful of parents and other adults. Programs that exhibit animalistic lust and not love-(Agape) and programs that lack compassion and principled love for fellow beings, brotherly love-(Phileo), we do not watch such ones, however, they viewed as attractions to programs coming up in advertisements on T.V. You no doubt agree we do not need any more of these types of programs. You folks must understand these things are so demoralizing to the people of this country. RFD and Family Net show none of this kind. Please do not remove the programs of These networks from television.

Sincerely,  
Warren and Becky Slattendale

DOCKET FILE COPY ORIGINAL

Dear FCC:

I am a new viewer to the rural news network via Directv and I am already a passionate fan.

As a nation of patriotic individuals, we have a civic obligation, I believe, to be attentive to factors and dynamics which influence our country. However the emphasis by so many news channels on violent events and specious or trite topics is not only disturbing but a deterrent to watching the news at all.

Then I discovered the RFTV. Although the focus on farming and agriculture may, on the surface, seem to be relevant to only a small group of Americans, the production of food is a vital industry to all of us; essential to our national security. RFTV is a channel which covers the news of national events and the economy through this unique viewpoint.

I find that learning about these pressing topics through the viewpoint of rural dynamics is not only informative, but uplifting and unifying to us as a country. I personally feel more hopeful and constructive since I have started receiving my news from the RFTV network. I tell everyone I know about this excellent channel. That the viewership is growing is no surprise, considering that the response of so many people is similar to my own.

In summary, the RFTV channel is a vital contribution to our hopeful viewpoint and informed intelligence as a nation. I earnestly appeal that you keep the channel available to us.

Sincerely,

  
Hope Sheehan

Dear FCC ... Proceeding number 16-41

I watch RFD -TV on Direct TV which is the main reason I subscribe to Direct TV.

I greatly enjoy the programs with a western theme that cannot be found on any other channel. I especially have enjoyed the American Rodeo the last three years. What a fantastic opportunity for the great sport of Rodeo. Thank you Mr Gottsch for your support.

This channel serves many thousands of viewers in the western and mid-western states as well as nationwide and I personally would be very disappointed to have it change in any way or have it become less accessible.

What has happened to free enterprise? Let the big corporations find some other way to make their huge amount of money. Do not let them determine the future of RFD-TV.

Thank you from a very loyal supporter of RFD-TV.

We are senior citizens. National stations  
NBC and CBS etc. We love R.F.D. because  
we <sup>watch</sup> the country shows, horse shows, tractor shows  
the news, etc. R.F.D. is one we watch the most.  
We have been getting the R.F.D. TV magazine for
